

I live in a city that receives the signal for K-LOVE radio on FM radio and am very fortunate to receive this in my community. My family and I thoroughly enjoy the positive messages, music and information without concern for our little ones to hear anything inappropriate. Without this radio station, we would not have access to a station that plays a variety of positive (Christian) contemporary music style. The service provided by K-LOVE radio is necessary to provide encouraging words and music to all, whether they are of the Christian faith or not, regardless of age. K-LOVE also offers a way for listeners to feel connected since it is a nationwide service, as well as it provides local points of interest. Please continue to allow this service to be provided on FM translators.
